

# Lackawanna College 2019 Summer Camp Offerings

**June 24-28, 2019**

**Lego® Pre-Engineering (ages 5-8)**

**9-11:30 am**

Learn the basics of how to build houses, buildings & even a town!  
Build a vehicle, crash it and repair it! Campers will explore the many possibilities of Lego's building systems while learning useful construction techniques. (Limited seating is available.) **\$130 Includes kit\***

**Lego® Pre-Engineering (ages 9+)**

**12-2:30 pm**

Learn the basics of constructing with Legos or work on more advanced projects in teams, as a group, or on your own! Campers will explore the many possibilities of Legos building systems while learning useful construction techniques. Campers will also learn the principles of friction. (Limited seating available.) **\$130 includes kit\***

**July 15-19, 2019**

**American Girl Doll Camp (ages 4-7)**

**9-11:00 am**

Bring your favorite doll to camp! Campers will create matching bracelets, photo frames and jeweled crowns as well as accessories for their dolls. Story time, dancing and singing will also be a part of our day. To celebrate the week there will be a relaxing spa day on Friday! **\$100 per child**

**Little Heroes (ages 4-7)**

**9-11:00 am**

Ever thought of growing up to be a fireman, policeman, paramedic or even a soldier? Each day we will have a visit from a different "hero" and examine their career from a child's point of view. Friday is "Super Hero Day" and, will include fun activities with other super heroes such as Batman, Spider Man and Captain America!!! **\$100 per child**

**Artful Antics (ages 8+)**

**12-2:30 pm**

Using various nature-made resources, household supplies, as well as traditional art materials, your child will be urged to let his/her imagination run wild! While participating in Artful Antics summer camp, the children will be encouraged and supported while using their artistic abilities. Take-home projects will proudly represent your child's creative efforts during this fun art adventure.

**\$120 per child**

**July 29-Aug. 2, 2019**

**Lego® "Things that Go!" (ages 5-8)**

**9:00-11:30 am**

This camp is all about "Things that Go" vroom, whoosh and beep. Campers will design Lego creations that move, fly, float, race and go. They will invent their own simple machines, and then test, re-engineer, and re-test them. A new challenge each day to help teach scientific concepts! (Limited seating available) **\$130 includes kit**

**Lego® Mindstorm EV3® Robotics (8+)**

**12-2:30 pm**

Lego® Mindstorm EV3 programs will encourage campers to learn about Science, Technology, Engineering and Math (STEM) in a fun way! Computer programming, engineering as well as creative and critical thinking, collaboration and problem solving will be offered in an exciting format.

(Limited seating available)

**\$135 per child**
